All other call and text types on the RED Sharer price plan shall be charged at the out of bundle rates set out in this Price Plan Guide.

Calls made through the return call service via voicemail are not included in the Customer's allowance.

Shared data

All Connections with a data allowance included in that Connection's price plan on the RED Sharer price plan will share their UK data allowances, plus any RED Sharer optional internet packs, in a 'data pool'. Connections on a 'Voice only' RED Sharer price plan (without an allocation of data) will not be able to use the data pool. If a Connection on a 'Voice only' RED Sharer price plan uses data then the out of bundle rates detailed in this Price Plan Guide shall apply per Connection. Connections on other price plans will not be able to share data. Connections on a RED Sharer price plan without a data allowance will be able to access the data pool. If Customer uses a data-only SIM Card meant for a mobile broadband device (like a tablet or dongle) to make voice calls and texts, the out of bundle charges in the tables below will apply.

Customer must have a 'Lead Connection' among its 'Member Connections' on the RED Sharer price plan. The Lead Connection and the Member Connections on the RED Sharer price plan are called the 'Group'.

The Lead Connection:

- will incur all Charges incurred by the Group;
- cannot have a content bar applied because out of bundle charges will be recorded as content purchases; and
- must be a 'smartphone'.

Calling Service Numbers from 1 July 2015

Changes for customers on Vodafone RED Sharer Plans

Telephone numbers starting 08, 09 and 118 are called service numbers, and are also commonly known as non-geographic numbers. These numbers are often provided by organisations such as banks, travel agencies or Government departments, for their end customers or users to call them on.

From 1 July 2015, the regulator Ofcom is changing the way these numbers are charged. These changes are designed to make the cost of calls clearer, and are being communicated through a campaign called UK Calling. More information is available at www.ukcalling.info

Changes to numbers beginning 0800 and 0808 (Freephone)

Freephone numbers starting 0800 or 0808, which are generally already free from landlines, will be free to call from mobile phones from 1 July 2015. After that date, it'll be free to call any number starting 0800 or 0808 from your Vodafone phone.

Changes to numbers beginning 084, 087, 09 and 118

Numbers beginning 084 and 087 are general service numbers for contacting organisations.

Those beginning 09 are 'premium rate' service numbers; while those beginning 118 are directory enquiry numbers.

From 1 July 2015, the cost of calling these numbers will be split into two parts:

- **The access charge**
This is the cost of connecting your call to our network. Each Vodafone Price Plan will now include an Access charge (pence per minute), which will appear on your monthly bill.
- **The service charge**
This is the rest of the call charge. The organisation you are calling decides the service charge, and must communicate it. For example, if the service charge was 20p a minute, the organisation you are calling might say: "Calls cost 20p per minute, plus your phone company's Access charge".

The total call cost will then be the sum of your Access charge plus the destination organisation's Service charge.

Pricing for Vodafone RED Sharer plans Customers

For calls by Vodafone RED Sharer plans customers to **0800 and 0808 (Freephone)** the cost of these calls will be **Free**.

For calls by Vodafone RED Sharer plans customers to service numbers beginning **084, 087, 09 or 118**, an Access charge will apply. The Access charge will be **10p (ex VAT)**.
